other items or equipment to the vehicle.

WARNING: Always check harnesses and tether straps for damage and wear.

WARNING: Never leave a child unattended, even if the child is secured in a child restraint system.

Airbags

Location of Airbags

Airbags are located in the approximate areas shown below. Airbag warning information is printed on the sun visors.

Model Y is equipped with airbags and lap/shoulder belt (also called seat belt assembly) at both designated front seating positions. All occupants, including the driver, should always wear their seat belts whether or not an airbag is also provided at their seating position to minimize the risk of severe injury or death in the event of a crash.

NOTE: On RHD (Right Hand Drive) vehicles, the locations of the passenger and driver airbags are reversed.

1. Front airbags
2. Driver seat-mounted airbag on the inside portion of the seat
3. Seat-mounted side airbags
4. Curtain airbags

How Airbags Work

Airbags inflate when sensors detect an impact that exceeds deployment thresholds. These thresholds are designed to predict the severity of a crash in time for the airbags to help protect the vehicle's occupants. Airbags inflate instantly with considerable force accompanied by a loud noise. The inflated bag, together with the seat belts, limits movement of occupants to reduce the risk of injury.

Airbags

Front airbags are not ordinarily designed to inflate in rear collisions, rollovers, side collisions and when braking heavily or driving over bumps and potholes. Likewise, front airbags may not inflate in all frontal collisions, such as minor front collisions, underride collisions, or minor impacts with narrow objects (such as posts or poles). Significant superficial damage can occur to the vehicle without the airbags inflating and, conversely, a relatively small amount of structural damage can cause airbags to inflate. Therefore, the external appearance of the vehicle after a collision does not represent whether or not the front airbags should have inflated.

MODEL Y

2025+

OWNER'S MANUAL

Software version: 2025.8

Hong Kong

YOUR OWNER'S MANUAL

For the latest and greatest information that is customized to your vehicle, view the Owner's Manual on your vehicle's touchscreen by touching the app launcher and then selecting the Manual app. The information is specific to your vehicle depending on the features you purchased, vehicle configuration, market region, and software version. In contrast, owner information that is provided by Tesla elsewhere is updated as necessary and may not contain information unique to your vehicle.

RELEASE NOTES

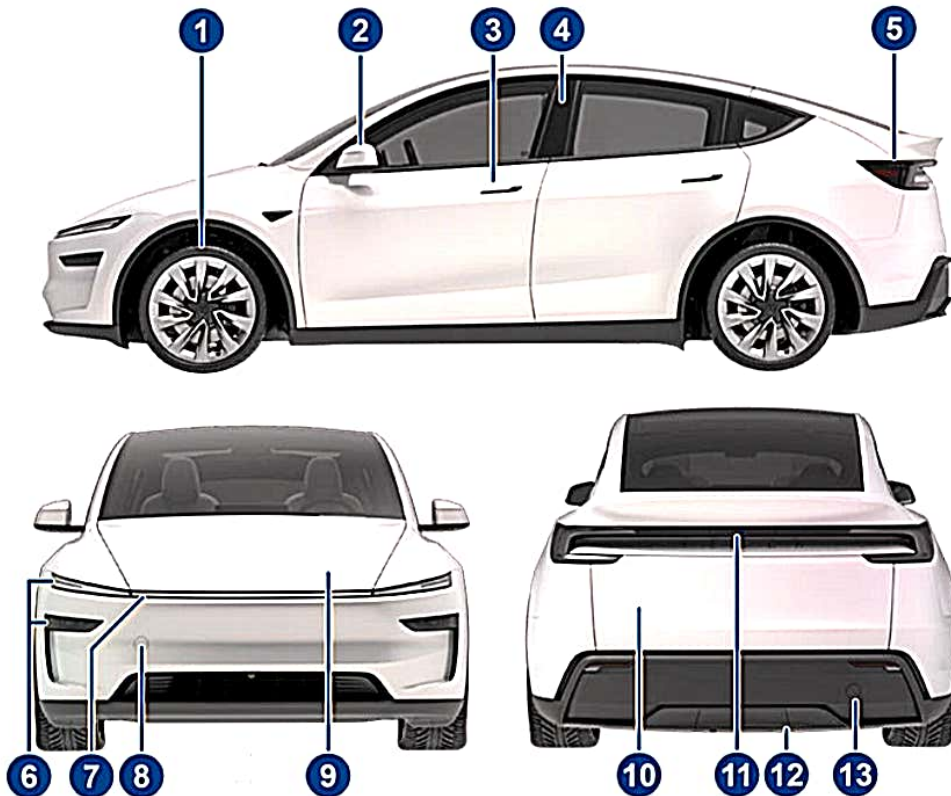

Information about new features is displayed on the touchscreen after a software update, and can be viewed at any time by choosing the **Release Notes** tab in the Manual app, or by touching **Controls > Software > Release Notes**. If the content in the Owner's Manual on how to use your vehicle conflicts with information in the Release Notes, the Release Notes take precedence.

ILLUSTRATIONS AND PRODUCT SPECIFICATIONS

The illustrations provided in this document are for demonstration purposes only. Depending on vehicle options, equipment, and market region, the information displayed on the touchscreen in your vehicle may appear slightly different.

All specifications and descriptions contained in this document are verified to be accurate at the time of printing. As continuous improvement is a goal at Tesla, we reserve the right to make product modifications at any time. To correct inaccuracies or omissions in this document, please send an email to: ownersmanualfeedback@tesla.com.

1. Wheels and tires (Wheels and Tires on page 184)
2. Exterior mirrors (Mirrors on page 71)
3. Door handle (Using Exterior Door Handles on page 26)
4. Key card sensor (Keys on page 21), Autopilot camera (Cameras on page 19)
5. Charge port (Charging Instructions on page 149)
6. Headlights (Lights on page 76)
7. Front lightbar (Lights on page 76)
8. Front tow eye cover (Instructions for Transporters on page 187)
9. Hood/front trunk (Front Trunk on page 31)
10. Rear trunk (Rear Trunk on page 29)
11. Rear view camera (Rear Facing Camera(s) on page 92)
12. Tow hitch cover
13. Rear tow eye cover (Instructions for Transporters on page 187)

For Autopilot camera locations, see Cameras on page 19.

Interior

NOTE: On RHD (Right Hand Drive) vehicles, the controls illustrated throughout the Owner's Manual are arranged similarly, but are mirrored on the right side of the vehicle.
